### PROFILE

Frontend Developer | Web Enthusiast |

I'm Ali Omid, a frontend developer skilled in HTML, CSS, JavaScript, Tailwind, and Bootstrap. Passionate about creating responsive, user-friendly web applications and always eager to learn new technologies.

Currently studying Computer Engineering, I have hands-on experience in building dynamic and interactive websites. I thrive in team environments, solving complex challenges, and enhancing user experiences.

Looking for new opportunities to collaborate and grow!

### WORK EXPERIENCE

#### Tehran Technical Complex

2024 - 2025

Fronted Developer

- Designed and maintained the institution's website, implementing modern front-end frameworks.
- Developed interactive web pages and optimized UI components for better performance and accessibility.
- Assisted in migrating legacy systems to a modern, responsive web platform.

#### Freelance Front-End Developer

2024 - 2024

Fronted Developer

- Developed responsive and user-friendly web applications using HTML, CSS, JavaScript, and Tailwind CSS.
- Managed multiple projects independently, meeting deadlines and delivering high-quality code.
